

Maths Homework (L1-2): Fractions 1

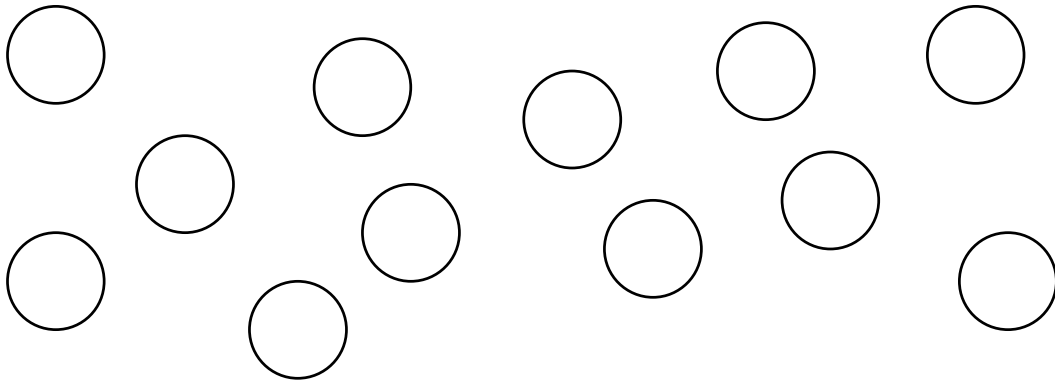

1. Tick the circles which have half of them shaded.

2. Colour half this circle.

3. Colour half of these circles in.

4. What numbers will make each of these sums correct if you use the same number in each box for each sum?

$$\square + \square = 4$$

$$\square + \square = 8$$

$$\square + \square = 6$$

$$\square + \square = 12$$

5. Draw a line matching the numbers to numbers that are half their value.
