

Maths Homework (L1-2): Fractions 2

1. Tick the circles which have half of them shaded.

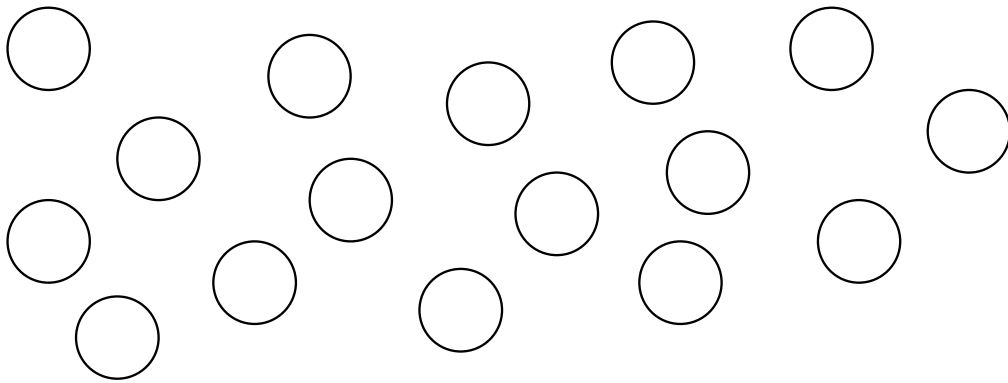

2. Colour half this circle in red and a quarter in blue.

What fraction of the circle is uncoloured?

3. Colour half of these circles in.

How many circles have you coloured?

4. What numbers will make each of these sums correct if you use the same number in each box for each sum?

$$\square + \square = 18$$

$$\square + \square = 20$$

$$\square + \square = 10$$

$$\square + \square = 14$$

5. Draw a line matching the numbers to numbers that are one quarter of their value.
